

Plastic access panel, door and picture frame

Non Fire Rated

APPLICATION

This lightweight, moulded plastic, access panel requires no mechanical fixings or stud work preparation to fix to.

DESCRIPTION

The single door, multipurpose access solution has a pivotal hinge system and locking stop within the plastic moulded design. It can be opened using a flat headed screwdriver.

MATERIALS & FINISHES

These recyclable access panels are manufactured from injection moulded white styrene plastic. The plastic profiles for the door and frame are 3.5mm thick. The panel faces have a white textured finish which can be overpainted if required.

SIZING	OVERALL FRAME SIZE	STRUCTURAL OPENING	CLEAR OPENING WITH DOOR OPEN
	150 x 150	+ 5	138 x 123
	150 x 100	+ 5	138 x 73
	230 x 150	+ 5	218 x 123
	200 x 200	+ 5	188 x 173
	300 x 300	+ 5	288 x 273
	560 x 560	+ 5	548 x 533

All measurements shown in the above table are in mm.

Note: Largest nominal size in this range would be 560mm x 560mm.

RATING

This panel construction has not been tested.

INSTALLATION

A silicon or glue fixing, once cured, will be enough to secure this panel to your wall or ceiling.
